

## Color Palette:

The primary colors used are a vibrant neon green and a soft light purple. The neon green signifies the freshness and vitality of nature, while the light purple adds a touch of sophistication and eco-friendliness. The combination of these two colors creates a visually appealing and modern look.

This bag has 'end-of-life' as it break down naturally into biological elements like water and biomass. All it needs is to come in contact with soil in presence of micro-organisms and humidity.

100% Compostable Garbage Bags

**Manufactured by** Balson Industries, Hinjewadi, Tal – Mulshi, Pune 411027 CPCB Lic No. – B-170111/7/PWM(Comp)/2-12(B1)

## Marketed by
